Graphic Design Intern

Mataf Industries, Seremban, Negeri Sembilan

- Designed graphics for websites and promotional materials, contributing to effective branding strategies.
- Implemented design fundamentals when selecting typography, composition, layout, and color in design work.
- Created 3D model of product (Multipurpose Cooker) using SolidWorks for product design concepts.
- Suggested enhancements to product design that would improve user experience.

Additional Information

While I'm still in the early stages of my career, I have a strong belief in my potential and always strive to learn and grow. Looking forward, I aim to expand my skillset with advanced stacks like React, Svelte, Tailwind, and TypeScript to become a better developer.
